Details

Application Features: Single piece of high purity extruded aluminum with die-formed specular aluminum. Two circuit track installed into housing. 20 amp maximum for all track fixtures installed on a run of MicroSquare. 3 wire system at 120v, 60 hz per track circuit.

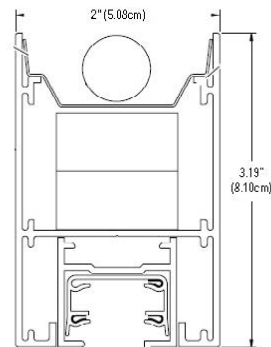

Construction: Pre-wired with 12 gauge track and 18 gauge fluorescent wires and polarized cannon plug connectors for simultaneous mechanical/ electrical connection. The housing end cap each have a draw tight mechanism that creates a hairline joint along and at the end of the run.

Finish: Powder-coated, baked enamel, white or aluminum, as specified. Custom colors available.

Electrical: Electronic ballasts are class P, thermally protected. Meets ANSI standards, end-of-life protection and sound rating specifications. Low THD.

Approvals: Union made, UL listed, and manufactured in the US, and I.B.E.W.

Options: Emergency Battery Backup, Dimming Ballast
