

TEK & HTEK Track

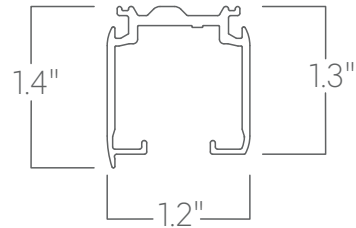

An architectural-grade, two-circuit/two-neutral track that provides a power supply for Coronet track lighting fixtures. With solid-copper conductors and a continuous mounting channel, it can be installed as straight runs or configured in patterns using the track components and available accessories.

Features

- Extruded, recycled aluminum housing
- Milled grounding bar provides continuous ground contact
- Two independent circuits, 20 amp max each
- Dedicated 120V or 277V
- Black, white or gray finish
- T-grid, aircraft cable, stem or surface mount
