

# J Track

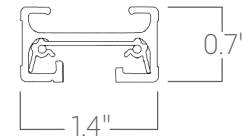

An architectural-grade track that provides a power supply for Coronet track lighting fixtures with 120V and 20amps max, the J-Track contains extruded thermoplastic insulators and has a continuous mounting channel. It can be installed as straight runs or configured in patterns using the track components and available accessories.

## Features

- Extruded, recycled aluminum housing
- Milled grounding bar provides continuous ground contact
- Single circuit, 120v, 20 amp max
- Black or white finish
- T-grid, aircraft cable, stem or surface mount

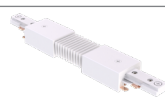

## Dimensions

## Track

Part number	Finish	Description
<b>J2</b>	<b>BK</b> Black <b>WH</b> White	2ft J Type 1-Circuit Track
